By Martin Hand : Ubiquitous Photography (Digital Media and Society) habermas heritage the future of the public sphere in the network society aug 01 2010nbsp;this generation has always existed in a world where media and intellectual property dont have the same gravity said ms brookover who at 31 is Ubiquitous Photography (Digital Media and Society):

The rise of digital photography and imaging has transformed the landscape of visual communication and culture Events activities moments objects and people are lsquo captured and distributed as images on an unprecedented scale Many of these are shared publicly some remain private others become intellectual property and some have the

potential to shape global events In this timely introduction the ubiquity of photography is explored in relation to interdiscipl Hand proves to be a reliable guide in taking us through what remains a rather bewildering landscape European Journal of Communication Photography is no longer a hobby or a discrete activity and Martin Hand sets out in his lucid
