0 of 0 review helpful Dinosaurs By Maya This may be an ok book to show pictures bad pictures to kids when they are really small My 3 year oldknows more about dinosaurs than was in this book She kept telling me what they ate I think using theherbivore and carnivore names it would have been better to say that they ate vegetation or meat whichmore people understand My children understand the metric sys Encourage your child to open the pages of this book to meet the different kinds of prehistoric animals Knowledge of these animals is very important in terms of helping a child

understand the theory of evolution By using images and color learning becomes fun and much more effective So go ahead and grab a copy of this educational book today About the Author Baby Professor showcases a collection of subjects that would be educational for kids to help them learn how to do something themselves or shows how something is done or how it came about Children love to learn through attractive visuals and Bab
